## Baby On The Run

Baby On The Run is a baby themed marathon that requires participants to wear diapers and dress like a baby in a marathon. We will be holding the marathon on May 7, 2014 at late spring which is the same month as mother's day. We want to give every participant a reminder of all the hard work that our parents has done for us and the effort they gave to allow us to grow healthy and strong. Even though it is a baby marathon, we strongly recommend that all participants wear sports shoes and sun block for safety. Besides precautions, we also require that each participant wear a bib that has their entry number printed on top of it and bring an item from your childhood to run with you throughout the whole course. There are no age limits, so feel free to come and have a good time with your family and friends. We will set up a medical station for every 250 meters throughout the entire run, so feel safe to come here and give it your best shot! The location that we are holding the baby marathon will be in Taipei, Taiwan and the starting point's location is at Taipei Tech which you can easily get to by simply taking the MRT. At the finish line we will set up a baby themed carnival for you to have fun. There will be meals served with baby food in a baby's dining set, baby themed rides, baby theme games and activities. We will also give each participant their very own baby shoes that they can design and sign on as a reminder of how you've grown into the person you are today and that you will keep learning and continue to grow just like a baby learning his or her first steps. We can't wait to see all of you adorable and super cute babies!

The reason why we launched this baby marathon is because we wanted people to have fun and in addition, we also want to give them something

memorable and positive that can glow in their heart after a whole day of excitement. We believe that by running in a marathon dressed like a baby can enlighten the passion and determination in one's heart because the whole marathon would seem like our life and we would be running in it with passion, fun and determination. Nowadays, people tend to live a life with pressure, loneliness and tons of negative thoughts streaming in their heads which brings unhappiness and misery. Through the baby marathon we hope to give people the concept of happiness, positivity and love while they run down the road side by side and having a remarkable time as they run towards their goal both in the marathon and real life.
